Labas Senior High School | 2020 - 2022

- Graduated with Honors

Experience

Software Developer (Freelance) , Santa Rosa, Province Of Laguna, Philippines (Remote) | Jan 2023 - Present

- Developed and delivered small- to large-scale software and web applications for students, including academic and capstone projects.
- Built functional systems using Java, Python, PHP, HTML, CSS, and JavaScript, tailored to project requirements and academic standards.
- Gathered client requirements, translated them into technical solutions, and provided project documentation and explanations when needed.
- Debugged and resolved application issues to improve performance, reliability, and user experience.
- Designed and implemented databases and table structures for web-based systems using MySQL.
- Conducted code reviews and applied best practices to ensure clean, readable, and maintainable code.
- Created and executed unit tests to validate functionality and improve software reliability.

Web Developer (Internship), C-Choice Construction Supply - General Trias, Cavite | Mar 2026 - June 2026

- Developed and maintained the company's e-commerce platform using Go (chi, templ, sqlc), SQLite, HTMX, and Tailwind CSS, delivering a responsive shopping experience for construction supply customers
- Implemented inventory management features including stock adjustment modals, inventory table filters, view-product actions, and automatic stock decrement on order creation
- Built admin tooling such as a staff activity log filter toolbar with staff/action/module dropdowns, brand management with status controls, and product search/filtering by brand
- Refactored cart layout and checkout flow, fixing quantity controls, mobile UI issues, promo banner navigation, and sidebar positioning for cross-device compatibility

- Integrated customer loyalty features including C-Points generation/redeem pages, QR code generation, customer verification via OTP email, and audit logging for report exports
- Resolved 20+ bugs across inventory updates, product image uploads, cart quantity, promo editing, and authentication flows
- Improved code quality through static analysis fixes (nilaway, go vet), enum standardization, error handling cleanup, and service-layer refactoring

T-Mobile Customer Care Representative - iQor - Santa Rosa, Laguna | June 2026 - August 2026

- Assisted customers with billing, account, payment, plan, and service-related concerns through inbound calls.
- Used multiple customer support systems to review account information, process requests, and document interactions accurately.
- Followed security, quality, and customer service procedures while maintaining clear and professional communication.

Virtual Assistant / Executive Support Specialist - Freelance Clients (Remote) - Santa Rosa, Laguna

January 2026 - June 2026

- Managed email inboxes and calendars for clients, organizing 50+ weekly tasks and appointments with minimal conflicts.
- Generated and qualified leads through research and data entry, maintaining organized databases with 95%+ accuracy.
- Scheduled client meetings and coordinated communications across multiple time zones, ensuring timely follow-ups.
- Provided administrative and technical support, improving workflow efficiency and reducing manual workload for clients.

Personal Projects/Selected Projects (Open-source)

E-Library - San-Roque-Elementary-School - A digital library platform with mobile and web interfaces for San Roque Elementary School, San Pedro Laguna. Capstone project featuring Docker deployment, database schema, and Railway/Render configs.

- Technologies: PHP, JavaScript, CSS, Docker
